

Bulletin

God's Work Through Our Hands

Although there is still much work ahead, we very pleased to have reached a significant milestone in July. After a delay of seven months due to Covid-19 and schedule conflicts, we were given diocese approval for the proposed new narthex and interior renovations on July 9th. The Strategic Planning Committee and Father Portelli met with our liturgical consultant and architect on July 23rd to review their respective proposals.

These next steps moving forward should take roughly 4-5 months: sign an updated contract with our liturgical consultant for the interior renovations, develop detailed construction documents for diocese approval, send the construction documents out for bids and review/select contractor bids. Realistically, we anticipate bids going out in late fall/early winter and hope to break ground next spring (2021).

Although subject to change, the latest project drawings are on display in the narthex. Thank you for your continued patience and prayerful and financial support for our *God's Work Through Our Hands* campaign.

Prayer

All powerful Father, source of all beauty and truth, You have built the Church on the Apostles and have made your Son the unshakable cornerstone. We have discerned your will and You have blessed us with the means to become your co-workers in the Sacred Heart campus revitalization. Our desire is to spread your kingdom to all Catholics, former Catholics and non-Catholics throughout Gladwin County. May the Holy Spirit guide our daily progress to its successful fruition as we joyfully and sacrificially do your work through our hands. We ask this through Christ our Lord. Amen.
